

Solar Tiffany-Style Post Cap Installation Instructions

To activate your new Solar Tiffany-Style Post Cap:

- Remove the solar panel by lifting it straight up from the top of the cap.
- Turn the on/off switch to the “on” position.
- Remove the plastic tab from the battery compartment to allow connection to the terminal.
- Ensure that the batteries are securely in place.
- Replace the solar panel.
- Your Solar Tiffany-Style Post Cap is now ready to be installed on your post.
- Your Solar Tiffany-Style Post Cap will need 24-48 hours of sunlight to fully charge.

Note: The amount of direct sunlight received by the solar panel determines the length of time the light will remain lit after dark.

Easy to install

Apply an exterior-grade construction adhesive to the underside of post cap and place firmly on the post.
